

TABLE OF CONTENTS

Introduction	v
1. Control fundamentals	1
Internal control.....	1
Controls over cash.....	5
Controls over accounts receivable	8
Controls over inventory	9
Controls over purchasing and payments	17
Resources on control	19
2. Cash management	21
Why cash management?	21
Controlling cash	22
The cash operating cycle.....	23
Forecasting cash.....	27
Investing excess cash	52
3. Receivables and receipts	55
Credit.....	55
Credit policies and procedures.....	59
Evaluating credit	73
Collections	85
Processing receivables and receipts	102
Improving cash flow	110
Monitoring receivables	112
4. Inventory	117
Managing inventory	117
Shipping	144
Obsolete and slow-moving inventory	146
5. Costing and the value chain	149
Cost and costing.....	149
Cost accounting.....	150
Costing methodologies.....	156

Standard costing.....	163
Managing costs	170
Quality costing.....	178
Theory of constraints	186
Product life cycle costing.....	191
Activity-based costing	199
Value chain analysis.....	224
6. Purchases and payables	239
Buying stuff	239
The purchasing function	240
Purchase orders	254
Payments	261
7. Human resources and payroll	295
Finance and HR.....	295
Hiring	296
Compensation management.....	310
Performance evaluation	313
Payroll	316
8. Facilities and equipment	327
Fixed assets planning	327
Premises leases.....	331
9. Tax administration	343
Why taxes?.....	343
Administering taxes	344
Income tax planning.....	354
Employment insurance (EI)	366
HST/GST and sales taxes.....	366
Property taxes.....	376
10. Transfer pricing	379
The intersection of cost accounting and tax.....	379
Methodologies.....	381
Transfer pricing in practice	390
CRA requirements.....	394
Index	399
