

Important: Filing/Shelving Instructions or Shipment Insert

Hawkland's Uniform Commercial Code Series

Lead author/editor: Mark E. Burge
2025-26 Edition

This year, we are providing you with all new contents of the treatise. **The nineteen-volume set has been converted into a ten-volume pamphlet format.** Please be advised that commencing with the next (2026-1 Edition) product update and moving forward, subscribers will be receiving approximately six content replacement volumes per shipment; pamphlet(s) will be provided to replace any relevant revised content within the respective volumes. This should greatly improve the reader's experience in terms of filing pages within a limited binder system—allowing the work to easily expand as needed. Though the format is changing, customers are not being charged more for this format change. Subscribers will pay the same overall price that they would have been charged during the course of the year.

This important and noteworthy publication provides the official code text, official comments, variations enacted by the states, and Permanent Editorial Board comments. It includes section-by-section analysis and commentary, other related legislation, and case references.

It is organized by the Uniform Commercial Code (UCC) numbers for quick access. Also included is analysis of the Non-UCC payment methods and systems. Please note that, for ease of handling, the materials in this shipment may ship in more than one box.
