

## PREFACE

This pocket part to *Korte, 29 Missouri Practice, Workers' Compensation Law and Practice* includes references to cases with citations in West's South Western Reporter beginning with Volume 108 S.W.3d and ending with the close of volume 539 S.W.3d.

It is essential that this pocket part be read side-by-side with the corresponding section of the main volume. Rather than supplement existing sections or rewriting them entirely (as in Section 7.42), where additional text has been added, the pocket part directs the reader to appropriate insertion points in the text of the main volume of sentences. This style has been adopted in order to maintain and enhance the text in the main volume with the least possible confusion or ambiguity.

Any references to the liberal construction required to be given to The Workers' Compensation Law should be disregarded and brought to the attention of the author, along with any found typographical or other citation errors.

I appreciate the assistance of David L. McCain, Jr., of Jefferson City, MO, with the preparation of this pocket part.

B. MICHAEL KORTE
