Environmental Law Forms Guide

2025-2026 Edition

By Richard H. Mays

Environmental Law Forms Guide is an invaluable resource for the practitioner dealing with day-to-day pleading issues under the many existing critical environmental statutes and regulations. **The five-volume set has been converted into a pamphlet format.** This should greatly improve the reader's experience in terms of filing pages within a limited binder system. Going forward, the set will also only be updated once per year. Though the format and frequency are changing, customers are not being charged more for this format change. Subscribers will pay the same overall price that they would have been charged during the course of the year. For ease of handling, please note the materials in this shipment may ship in more than one box.

Filing Instructions

- **REMOVE and RECYCLE** the entire treatise set (binders & contents).
- **PLACE** the new 2025-2026 pamphlet edition (volumes 1 through 4) in your library.

Highlights

Some highlights of this release include the following new forms:

- 15:43 Complaint to void executive order
- 43:28 Complaint challenging bureau of Indian affairs determination to take site into federal trust status
- 47:11 Complaint challenging national marine fisheries service biological opinion on increased oil exploration in gulf of Mexico
- 50:58 Complaint challenging EPA's cancellation of grant funds
- 50:59 Complaint against agency for failure to respond to Freedom of Information Act request
