

# PREFACE

---

Periodic supplementary pamphlets and cumulative Pocket parts keep each volume of the Minnesota Practice Series constantly up to date, both as to the text of the statutes and the constructions and interpretations thereof. The 2026 Supplement to the Minnesota Corporation Law and Practice volumes includes statutory changes to Minnesota corporation laws enacted through the 2025 legislative session and reported cases decided through September 1, 2025. In addition, the text updates the current commentary and interpretation of previously enacted Minnesota corporation laws and updates the forms to reflect the statutory changes.
