

PREFACE TO THE 2022 SUPPLEMENT

The accompanying supplements to the late Richard W. Bishop's important work, *Prima Facie Case, Proof and Defense*, 5th Edition, incorporate the past year's significant developments in legislation, decisional law, and court rules. With this new material, I hope and expect that Mr. Bishop's four volumes of the Massachusetts Practice Series will continue to be a valuable resource for Massachusetts practitioners.

As co-author, I would welcome suggestions or corrections from users of the 2022 supplements.
