

THOMSON REUTERS

New Product Format – Please read carefully

Dear Subscriber,

In order to make these products easier to use, the following publications are being published in pamphlet form:

Ohio Building Code and Related Codes with Residential Code (vol. 3)
Ohio Building Code: Residential Code

The new pamphlets will **replace** your existing looseleaf binder(s) and content(s). All chapters, supplemental and new material have been or will be integrated into this new pamphlet format.

Among the benefits of the new format:

- It is easier to keep pamphlets up-to-date. Simply replace your existing pamphlet with the latest version, or for minor updates, add sticky supplements into the back cover. You also no longer need to worry about inserting new, individual pages correctly into a binder.
- Pamphlets are more convenient to carry and take up less shelf space than most looseleaf binders.

For any questions about this or other products, contact Customer Service at 1-800-328-4880. Thank you for your business.

Sincerely,

Thomson Reuters
