

PREFACE TO ANNUAL SUPPLEMENT

This is the ninth annual supplement to the Fifth Edition of Malone and Johnson. As a result, it remains of somewhat modest size but will grow over the intervening years between this Fifth Edition and a future Sixth Edition.

Comprehensive review of the case law contained in this 2019-2020 supplement ended with the Southern 3rd advance sheet dated June 6, 2019 (No. 23). The legislative product of the 2019 Regular Session of the Louisiana Legislature was also considered and is contained in the statutory appendix and footnotes as appropriate.

There are no new text additions in this supplement, but all relevant judicial opinions have been summarized and placed in their appropriate sections and footnotes.

As always, comments and suggestions for improvement are welcomed.
