Hints for Effective Use

Baldwin's Kentucky Lawyer's Handbook with Forms is a collection of secondary source material. When researching any question, users should refer to Baldwin's Kentucky Revised Statutes Annotated, Official Edition, for the complete text of current laws and rules.

The model and illustrative forms, as well as Administrative Office of the Courts (AOC) Forms printed in the set, are provided to assist, not replace, the preparation of real documents. Selection of the proper form, and its adaptation to suit individual facts and circumstances, must be done by the user. Practitioners should consult <https://kycourts.gov/Legal-Forms/Pages/default.aspx> for the latest version of AOC Forms.
