

## **2025-2026 Highlights**

Litigating Nursing Home Abuse Cases has been converted into a one-volume pamphlet format. This volume will completely replace prior releases. This should greatly improve the reader's experience in terms of filing pages within a limited binder system—allowing the work to easily expand as needed. Though the format has changed, customers are not being charged more for this format change. Subscribers will pay the same overall price that they would have been charged during the course of the year.

This important work continues to provide authoritative guidance on litigating nursing home cases for plaintiff's attorneys, including guidance on investigating the claim, discovery, navigating the corporate maze to hold the decision-makers liable, proving understaffing, challenging arbitration clauses, and much more.
