International Securities Regulation: Stock Exchanges of the World

Enclosed please find Release 2024-1 for *International Securities Regulation: Stock Exchanges of the World*. With this release, we are providing you with all new contents of the treatise. The six-volume set has been converted into a pamphlet format. For the forthcoming updates, subscribers will receive a pamphlet or pamphlets (as needed) to replace any relevant revised content within the respective volumes. This should greatly improve the reader's experience in terms of filing pages within a limited binder system—allowing the work to easily expand as needed. Though the format is changing, customers are not being charged more for this format change. Subscribers will pay the same overall price that they would have been charged during the course of the year.

This seven-volume provides concise and understandable local law expertise regarding all of the world's major financial markets. The title is an instant-access guide to all pertinent information concerning the rules and regulations of the world's 49 major stock exchanges. Each chapter provides the breadth of information needed to confidently research, list, and trade securities worldwide. Information on each stock exchange includes an expansive commentary, a list of key contacts and chief officers, the types of instruments traded, and much more. This set is an asset for legal practitioners, executives, fund managers, and other securities industry professionals. Topics include English translations of rules and regulations; domestic and foreign listing requirements and rules; domestic and foreign membership requirements; market capitalization; trading hours; and language used in trading securities.

Please note that, for ease of handling, the materials in this shipment may ship in more than one box.
