

Important: Shelving/Filing Instructions or Shipment Insert

Engineering Evidence, 4th Edition

2025 Update

Enclosed is the 2025 update for Engineering Evidence, 4th. This year's release will be converted into more user-friendly soft-cover pamphlets. If you are a subscriber to this publication, this release replaces the previous binder (simply discard your old binder and place the new pamphlets- one for each volume- on the shelf).

Filing Instructions

REMOVE and RECYCLE the binder for this title.

PLACE the new soft-cover pamphlets, one for each volume, on your shelf

Highlights

Engineering Evidence includes coverage of statutes and case law with nationwide ramifications for establishing liability and estimating damages. Discussion of practice-proven techniques for selecting an engineering expert, presenting an expert for trial, introducing expert testimony effectively, and challenging the opposition's experts.

Includes a directory of expert sources for locating professional societies to aid in your selection of an expert witness. Highlights in this release include:

- Expanded coverage of Third Party Funded Litigation (§1:1)
- New section on Use of Artificial Intelligence and evidence (§1:16)
- New section on Spoliation (§1:17)
- Enhanced discussion of electronic evidence (§2:4)
- Coverage of recent updates to Rule 702 of the Federal Rules of Evidence (§2:95)

- New section on Teen Addition to Social Media as Product Liability (§4:117)
- New Section on OSHA Whistleblower Provision (§5:2.10)
