ANALYSIS OF CAPACITY

- contractual capacity, **2:10**
- decisional capacity, **2:11**
- definition
 - legal capacity, **2:1**
- donative capacity, **2:9**
- informed consent capacity, **2:12**
- testamentary capacity, **2:2-2:8**
 - conclusions, **2:8**
 - distinguishing insane delusion, **2:7**
 - inordinate or unusual disposition, **2:5**
 - pending conservatorship/guardianship at time of execution, **2:6**
 - variations in requirements, **2:4**
 - will, specific vs. general competency, **2:3**
- trust capacity, **2:13**

ASSESSMENT OF CAPACITY

- Generally, **5:1-5:6**
- legal capacity, **5:1**
- questionnaire, **5:2-5:6**

BRAIN,RELATIONSHIP OF STRUCTURE AND FUNCTION

- Generally, **6:1-6:36**
- basal ganglia, **6:13**
- basic dynamics, **6:26**
- brain's blood supply, **6:28**
- cellular constituents, **6:2**
- central and peripheral nervous systems, **6:7**
- cerebellum, **6:12**
- cerebral cortex
 - basic topography, **6:17**
 - cell types and layers, **6:16**
 - localization of function, **6:18**
- corpus callosum/cerebral commissures, **6:27**
- cortical areas
 - executive functions, **6:23**
 - higher cognitive abilities, **6:24**
 - movements, **6:19**
 - physical sensation (somatosensory areas), **6:20**

BRAIN,RELATIONSHIP OF STRUCTURE AND FUNCTION —Cont'd

- cortical areas—Cont'd
 - speech and language, **6:22**
 - vision, **6:21**
- diencephalon, **6:11**
- disorders resulting from injury to the brainstem, **6:10**
- hierarchical organization of biological systems, **6:29**
- human organism and its activity are processes, **6:34**
- limbic system, **6:14**
- meninges, **6:8**
- modularity of motor functioning, **6:36**
- neural plasticity and learning, **6:5**
- neurotransmitters, **6:4**
- organism and its context, **6:33**
- reductionism and materialism, **6:32**
- somatotopic representation in the brain mapping, **6:25**
- the brainstem and the cranial nerves, **6:9**
- the synapse, **6:3**
- topography, **6:6**
- ventricular system, **6:15**

CONSERVATORSHIP

- mental capacity
 - the protected person, **1:13**
- testamentary capacity
 - pending conservatorship/guardianship at time of execution, **2:6**

CONTESTING CAPACITY

- Generally, **3:1-3:15**
- burden of proof, **3:2**
- general analysis, the invalidation contest, **3:1**
- presumptions, **3:3**
- selected issues, **3:8**
 - disinterment to establish testamentary capacity, **3:9**
- theory of lack of capacity or undue influence, **3:1**

CONTESTING CAPACITY—Cont'd

- undue influence, **3:10-3:14**
 - distinguishing mental deficiency from mental incapacity, **3:11**
 - effect of a pending guardianship, conservatorship proceeding, **3:12**
 - independent correspondence or written materials, **3:14**
 - prior dispositive provisions, **3:13**
- witnesses, **3:4-3:7**
 - expert witnesses, **3:6**
 - lay witnesses, **3:5**
 - suggestions for the organization and presentation of expert testimony
 - proponent or contestant of the transaction, **3:7**

DEFENDING CAPACITY

- Generally, **3:1-3:15**
- burden of proof, **3:2**
- general analysis, the invalidation contest, **3:1**
- presumptions, **3:3**
- selected issues, **3:8**
 - disinterment to establish testamentary capacity, **3:9**
- theory of lack of capacity or undue influence, **3:1**
- undue influence, **3:10-3:14**
 - distinguishing mental deficiency from mental incapacity, **3:11**
 - effect of a pending guardianship, conservatorship proceeding, **3:12**
 - independent correspondence or written materials, **3:14**
 - prior dispositive provisions, **3:13**
- witnesses, **3:4-3:7**
 - expert witnesses, **3:6**
 - lay witnesses, **3:5**
 - suggestions for the organization and presentation of expert testimony
 - proponent or contestant of the transaction, **3:7**

DISEASES AND DISORDERS AFFECTING THE BRAIN

- Generally, **8:1-8:15**
- alcoholism, **8:11**
- alzheimer8217s disease and related disorders, **8:13**
- autoimmune disease, **8:8**
- brain disorders, **8:7**

DISEASES AND DISORDERS AFFECTING THE BRAIN —Cont'd

- brain tumors, **8:10**
- cerebrovascular disease, **8:12**
- chronic obstructive pulmonary disease, **8:8**
- delirium and potentially reversible dementias, **8:14**
- diabetes mellitus, **8:8**
- endocrine disorders, **8:8**
- epilepsy, **8:3**
- head trauma, **8:1**
- hypertension, **8:8**
- iatrogenic disorders among the elderly, **8:9**
- infectious diseases, **8:4**
- normal aging, **8:5, 8:6**
- progressive neurologic diseases
 - young and middle adulthood, **8:2**
- psychiatric disorders, **8:15**

INCAPACITY

- generally, **4:1-4:16**
- advance directives, **4:2-4:6**
 - durable power of attorney, **4:5**
 - living will, **4:4**
 - statutory consensus decision making, **4:6**
 - timing on execution, **4:3**
- documentation, clients capacity, **4:7-4:16**
 - generally, **4:11**
 - consider audio or videotaping the contemplated act, **4:14**
 - going slow, **4:15**
 - one-on-one conferences with the client, **4:10**
 - referral to a physician trained in assessment of mental capacity, **4:9**
 - scheduling the time of transaction/execution, **4:8**
 - the educated and informed witness, **4:13**
 - the effect of medications on capacity, **4:12**
 - undue influence, safeguards to avoid allegations, **4:16**

LEGAL MALPRACTICE

- mental capacity, avoiding, **1:10**

INDEX

MEDICAL ASSESSMENT OF MENTAL CAPACITY

Generally, **7:1-7:14**
angiography, **7:12**
areas of cognitive assessment, **7:8**
behavioral change, **7:3**
clinical neurologic examination, **7:5**
cognitive and neuropsychologic examination, **7:7**
cognitive change, **7:3**
electroencephalography, **7:11**
emotional change, **7:3**
focal vs. generalized signs and symptoms, **7:2**
lumbar puncture, **7:13**
mental status examination, **7:6**
metabolic brain imaging
 PET, SPECT, and functional MRI, **7:10**
perceptual change, **7:3**
personality change, **7:3**
recovery, brain damage, **7:14**
sequelae most likely to affect legal capacity, **7:4**
structural brain imaging: CT and MRI, **7:9**

MENTAL CAPACITY

See also Medical Assessment of Mental Capacity
avoiding legal malpractice, **1:10**
confused client, **1:2**
conservatorship
 the protected person, **1:13**
demented client, **1:2**
incapacitated person
 definition, **1:11**
 protection, guardianship, **1:12**
incapacity
 dementia and the common medical causes, **1:17**
incompetent person
 definition, **1:15**
 judicial protection, **1:16**
lawyer8217s assessment dilemma, **1:3**
lawyer8217s duty to assess competency, **1:4-1:8**
 ACTEC commentaries on model rules of professional conduct, **1:8**

MENTAL CAPACITY—Cont'd

See also Medical Assessment of Mental Capacity—Cont'd
lawyer8217s duty to assess competency, **1:4-1:8**—Cont'd
 ethics rules adopted by the ABA and the ACTEC, **1:5**
 the model code of professional responsibility, **1:6**
 the model rules of professional conduct, **1:7**
permanent vs. transient capacity or incapacity, **1:14**
 definition, incompetent person, **1:15**
 pros and cons of making an assessment, **1:9**

TESTAMENTARY CAPACITY

Generally, **2:2-2:8**
conclusions, **2:8**
distinguishing insane delusion, **2:7**
inordinate or unusual disposition, **2:5**
pending conservatorship/guardianship at time of execution, **2:6**
variations in requirements, **2:4**
will, specific vs. general competency, **2:3**

TREATMENT OF ORGANIC BRAIN DAMAGE

Generally, **9:1-9:11**
anticoagulant therapy, **9:5**
electroconvulsive therapy (ECT), **9:9**
iatrogenic dementia, **9:10**
newer drugs for alzheimer8217s disease, **9:8**
oxygen, **9:7**
psychiatric care, **9:6**
psychoactive medications, **9:2**
thyroid hormone, **9:3**
Vitamin B12 (cobalamine), **9:4**

UNDUE INFLUENCE

Generally, **3:10-3:14**
distinguishing mental deficiency from mental incapacity, **3:11**
effect of a pending guardianship, conservatorship proceeding, **3:12**
independent correspondence or written materials, **3:14**
prior dispositive provisions, **3:13**
