

Introduction to the 2025-2 Edition

This set provides fast, accurate, and complete answers to all your questions on drug testing programs. Expert analysis of pertinent statutory and common law issues helps you successfully represent clients in cases involving private, government, and pre-employment testing. In addition, this set covers urine testing in the schools and in the criminal justice system.

The drug testing field remains in flux. As states have started to legalize medical and recreational marijuana, as well as other drugs, states and employers are grappling with what tests to use, what constitutes impairment, and what protections are available for off job use. Among the issues discussed in this update include: cases involving CBD, THC, and employment, medical cannabis and DUI laws, medical cannabis use and child neglect, drug use and probation, drug use and the Second Amendment, the ADA and drug testing policies, and warrantless drug laws and implied consent.
