Litigating Mass Tort Cases

By Paul D. Rheingold

2025 edition

This year we are providing you with all new contents of Litigating Mass Tort Cases. The two-volume set has been converted into a pamphlet format. This should greatly improve the reader's experience in terms of filing pages within a limited binder system—allowing the work to easily expand as needed. Though the format is changing, customers are not being charged more for this format change. Subscribers will pay the same overall price that they would have been charged during the course of the year.

With the movement to a book style publication from the three ring binder, the supplement to each section has been placed at the end of that section, making it easier to access. New and retitled sections since the initial publication are also noted. Chapter 12, Bankruptcies in Mass Tort Cases, Chapter 14A, Insurance Coverage for Mass Tort Litigation, and Chapter 15, Current Mass Tort Litigation: 2024-2025 integrate the new content into existing content and so will not have a supplement heading.

This important work continues to provide authoritative guidance on litigating mass tort cases.
