

Important: Filing/Shelving Instructions or Shipment Insert

Medical Information Systems for Lawyers

This year we are providing you with all new contents of the treatise. The set has been converted into a pamphlet format. This should greatly improve the reader's experience in terms of filing pages within a limited binder system—allowing the work to easily expand as needed. Though the format is changing, customers are not being charged more for this format change. Subscribers will pay the same overall price that they would have been charged during the course of the year. This important work continues to provide a guide to medical information in legal cases.

Shelving Instructions

- REMOVE and RECYCLE the binders and contents
- PLACE the new pamphlets in its place

Highlights

New features and recent developments in this release include new regulations on medical privacy of substance abuse and reproductive privacy records, and cases on medical privacy.
