Every Chapter Tells a Story	5
Summary	5

CHAPTER 1

THE EIGHT FUNDAMENTAL PRINCIPLES OF INVESTIGATION ..	7
Introduction.....	7
The Eight Fundamental Principles of Investigation	7
1. Investigators must be as independent as possible	9
2. Investigators must be appropriately trained and experienced	13
3. All potentially relevant issues must be identified and, where appropriate, pursued	16
4. The investigation must be sufficiently resourced	16
5. All relevant digitally stored and physical evidence should be identified, preserved, collected and examined as necessary	18
6. All relevant documentation must be secured and reviewed	20
7. Anyone who may have relevant information about whatever is being investigated must be identified and, where necessary, interviewed. Any interview must be thorough and objective	20

8. The analysis of all the material gathered in the investigation must be objective and based solely on the facts.....	22
The Eight Principles and Procedural Fairness	22
