

TABLE OF CONTENTS

TABLE OF CASES	v
INTRODUCTION	1
1. Preliminary Assessments and Caveats	2
2. General Purpose, Methodology and Intended Audience of the Book	7
3. Brief Outline of the Book.....	11
4. About the Author.....	14
PART I. THE PRESENT: SETTING THE CONTEXT	17
Chapter 1: Technological Context	19
1. Digital Data in the Information Age.....	19
2. General Overview of AI.....	21
Chapter 2: Legal Industry Landscape.....	31
1. Brief Historical Perspective.....	31
2. New Participants in the Legal Ecosystem.....	33
3. Current Trends towards Productization and Outcome-Based Services	36
4. The Legal Industry in a Post-Pandemic World	38
Chapter 3: Socioeconomic, Global Geopolitical, and Canadian Contexts.....	39
1. Socioeconomic Context.....	39
2. Global Geopolitical and Canadian Contexts	41
PART II. AI AND THE PRACTICE OF LAW	45
Chapter 4: Overview of AI Customization	47
1. General Principles and Stages of AI Customization.....	47
2. Customization of AI to Law.....	51
3. General Risk Assessment	52
Chapter 5: Specific Applications of AI in the Practice of Law	55
1. AI and Legal Language	55
2. AI Recognition of Legal Concepts.....	65
3. Assessment of Legal Risk and Prediction of Legal Outcomes...	67
4. Regulatory Compliance	78
5. Contract Review and Other Due Diligence Tasks	80
6. Legal Research.....	83
7. Discovery	86
8. Contract Drafting	87
9. Use of AI in Adjudication.....	88
10. Use of AI in the Business of Law.....	91

Chapter 6: Limitations of AI in Law and Key Legal Skills of the Future	
Human Lawyer.....	95
1. Reasoning Limitations: Methodology vs. Specificity, Rationalization vs. Reasoning.....	97
2. Multi-Layered Legal Analysis Limitation: Multi-layeredness vs. Linearity.....	99
3. Originality and Creativity Limitations.....	101
4. Normative Limitations: Ethics, Judgment and Adaptability...	104
5. Social Context and Strategic Limitations.....	108
6. Human Management, Communication and Advocacy Skills Limitations.....	113
7. Other Limitations.....	116
8. New Legal Skills.....	118
PART III. AI AND GOVERNANCE.....	121
Chapter 7: Introduction to the Legal Governance of AI.....	123
1. Preliminary and Foundational Issues.....	124
2. What to Regulate.....	131
3. Principles-Based Approach to AI Governance.....	142
4. Function of the Law in the AI Context.....	146
Chapter 8: AI in Decision-Making: Accountability, Bias and Due Process.....	151
1. Emerging Practical Uses and Technological Capabilities.....	151
2. Key Concerns Posed by AI Uses in Decision-Making.....	158
3. Regulatory Responses to Address the Concerns.....	167
Chapter 9: AI and Implications for Human Autonomy, Privacy, and Surveillance.....	179
1. AI and Profiling: Impact on Human Autonomy.....	179
2. AI and Privacy.....	186
3. AI and Surveillance: Facial (and Voice) Recognition.....	193
Chapter 10: AI, Legal Responsibility and Personhood.....	205
1. AI and Legal Responsibility.....	205
2. AI and Legal Personhood.....	222
Chapter 11: Governance of the AI Lawyer.....	229
1. Key Issues and Ethical Duties.....	229
2. Regulatory Responses.....	231
Chapter 12: Governance of Other Uses and Impacts of AI.....	235
1. AI and the Political Process.....	235
2. AI and Autonomous Weapons.....	241
3. AI and Data, Market and Socioeconomic Asymmetries.....	245

PART IV. THE FUTURE: ETHICS, INTERNATIONAL FRAMEWORK, AND SOME FINAL THOUGHTS.....	255
Chapter 13: AI and Ethics.....	257
1. Machine Ethics: Encoding Values in an Algorithm	257
2. Human Ethics and Machine Rationality.....	261
Chapter 14: International Cooperation on and Governance of AI	263
Chapter 15: Final Thoughts Looking Ahead	267
APPENDICES.....	269
Appendix A: List of AI Providers in the Practice of Law	269
Appendix B: Risk Assessment Matrix for Proposed AI Applications	271
INDEX	275
