

INDEX

Accident investigation

- common process, 5
- death or critical injury, 11
- multi-plant companies, 5
- policy and procedure manuals, inspector demand for, 155
- responsibilities, generally, 5
- reporting requirements
 - differences by jurisdiction, 11
 - tables outlining, 6–10, 12–16
- joint health and safety committee, role of, 5, 11
- written reports, required, 5

Age requirements

- jurisdictional guidelines, 143–146

Chemical agents

- exposure limits
 - standards by jurisdiction, 17–18

Competency

- “competent person”, 19
- “qualified person”, 19
- requirements
 - generally, 19
 - jurisdiction, by, 19–46
 - supervisors, 19–46

Construction projects

- responsibility of parties, 59–72
 - introduction, 59

Controlled substances

- first aid, 97
- handling, use and storage of

- safe working procedures, 211
- worker education and training, 75

Directors and senior managers

- legal duties, 73
 - requirements, by jurisdiction, 73–74

Disease prevention, *see* Regulatory prevention structures

Due diligence

- accident investigations, 5
- directors’ legal duties, 73
- ergonomic hazards, 85–86
- joint health and safety committees (JHSCs)
 - education and training, 80
 - employer duty to work with, 116
 - legal functions of, 49
- OHS policies and programs, 155
- safe working procedures
 - generally, 211
 - lockouts, 135
- violence and harassment, preventing, 239
- worker education and training, 75, 80, 211

Ergonomic issues

- chairs and workbenches, 85
- due diligence considerations, 85–86
- lighting, 85
- musculoskeletal injuries
 - medical treatment often expensive, 85

Index

- Ergonomic issues (*cont'd*)
- • preventative programs, 85–89
 - • returning to work after recovering from, 86
 - • time lost due to, 85
 - weight, size or shape of equipment, 85
- Expectant and nursing mothers**
- risks to, *see under* Toxic substances
- First aid**
- common requirements, 97
 - legal references, by jurisdiction, 98
- Harassment in the workplace**
- “cyberbullying”, 239
 - discrimination, 239
 - generally, 239
 - “harassment” defined, 239
 - prevention and protection
 - • programs, by jurisdiction, 240–247
 - sexual harassment, 239
- Hazards**
- controlled substances, *see* Controlled substances
 - ergonomic, 85–86
 - • manual material handling, 85
 - lockout procedures, *see* Lockout procedures
 - preventative measures
 - • competency requirements, by jurisdiction, 19–46
 - reporting requirements
 - • cooperation with JHSCs, 99
 - • jurisdiction, by, 100–101
 - • response procedures, 99
 - • worker training, 75, 99
 - toxic substances, *see* Chemical agents; Toxic substances
 - worker right to refuse work, 203
 - workplace inspections, 259
- Incentive programs reducing accident claims**, *see under* Workers compensation
- Injury prevention**, *see* Regulatory prevention structures
- Inspections, workplace**
- controls, 259
 - cranes and hoists
 - • pre-start inspections, 259
 - hazards, identifying, 259
 - joint health and safety committee, conducted by, 259
 - legal requirements by jurisdiction, 260–263
 - OHS policies, observance of, 259
 - safe working practices, 237
 - • worker right to refuse work
 - • • legal requirements by jurisdiction, 204–209
- Inspectors, OHS**
- orders, issuing
 - • accident reporting, 11
 - • ergonomic issues, 86
 - • injuries, 86
 - policy and procedure manuals, demand for, 155
 - worker refusing to work
 - • legal requirements by jurisdiction, table of, 204–209
- Investigations**, *see* Accident investigations
- Joint health and safety committees (JHSCs)**
- accident investigations

Index

Joint health and safety committees (JHSCs) (*cont'd*)

- reporting requirements, 5, 11
- consultation with, 121–133
- introduction, 121
- tables, 121–133
- employer obligation to cooperate with, 116
- reviewing or assessing risks of injury, 85
- safe working procedures
 - developing, 211
 - employee working alone or in isolation, 249
 - hearing protection, 147
- legal functions of
 - comparing jurisdictions, 49
 - exceptions, 49
 - tables outlining, 50–57
- legal provisions relating to
 - generally, 116
 - membership criteria, 116
 - tables outlining, 109–115, 117–121
- OHS policies and programs, review of, 155
- training for
 - exceptions, 80
 - generally, 116, 79–80
 - paid leave, 80
 - table outlining, by jurisdiction, 81–83
- worker participation in
 - historical context, 109
 - requirement by jurisdiction, 109–115
- worker right to refuse work, 203
- workplace inspections, 259

Lockout procedures

- due diligence steps, 135
- electrical equipment, 135
- energy sources, 135
- jurisdiction, legal requirements by, 136–142
- reasons for lockout
 - machines
 - accidental start-up of during maintenance and repair work, preventing, 135
 - power lines, work on, 135

Minimum age of workers

- guidelines for jurisdictions, 143–146
- introduction, 143

Noise levels

- hearing loss, cause and effect, 147
- noise control programs
 - commonality among jurisdictions, 147
 - hearing tests
 - baseline tests, 147
 - JHSC, involving, 147
- legal requirements by jurisdiction, 148–154
- worker training, 147

Occupational health and safety, generally

- acts
 - regulations, and, 265–276
 - regulatory agencies, and
 - generally, 1
 - table of jurisdictions, 1–4
 - regulatory prevention, 199–202
- addresses and resources, 277–290
- policies and programs
 - generally, 155

Index

- Occupational health and safety, generally (*cont'd*)
- JHSC, role of, 155, 259
 - legal requirements by jurisdiction
 - checklist, 155–156
 - table of, 156–161
 - requirement to have written policies, 155
 - exceptions, 155
 - prevention, 199–202
 - prosecutions under, 11, 19, 73, 203
 - responsibilities of parties, 59–72
- Posting information**
- due diligence, 163–164
 - government inspector reports, 163
 - intranet system, 164
 - introduction, 163–173
 - languages other than English, 163, 164
 - list of committee members updated, 163
 - notice boards, 163
 - other requirements, 163
 - summary table by jurisdiction, 165–198
 - temporary overseas workers, 163
- Pregnant women, risks to, *see under* Toxic substances**
- Regulatory prevention structures**
- disease prevention, 199
 - structures, 199
 - tables outlining, 200–202
 - workplace injury prevention, 199
- Right to refuse work**
- conditions justifying
 - “dangerous” conditions, 203
 - stop-work legislation in Ontario, 203
 - “unsafe” conditions, 203
 - duty to report hazards, distinguished from, 99
 - JHSC, role of, 203
 - legal right, distinguished from legal duty, 203
 - legal rights, by jurisdiction, 204–209
 - protection against disciplinary action, 203
 - toxic substances
 - expectant mothers, 91
- Safe work procedures**
- education and training, *see* Due diligence; Worker education and training
 - legislative references, by jurisdiction, 212–228
- Smoking in the workplace**
- “designated” smoking areas, 229
 - enclosed workspaces, prohibited in, 229
 - restrictions, by jurisdiction, 229–230
- Supervisors and managers**
- general duties, table of, 232–238
 - introduction, 231
 - supervisor defined, 231
 - prosecution of, 231
- Toxic substances, *see also* Chemical agents**
- expectant mothers, risk to
 - lead, 91
 - mercury, 91
 - OHS legal duties
 - reasonable precautions necessary where legal duties not specific, 91–92

Index

Toxic substances (*cont'd*)

- requirements by jurisdiction, 92–95
- protective leave or reassignment, 91
- radiation, 91
- right to stop work, 91
- South African Code of Practice, 91
- exposure limits, 91

Violence in the workplace

- generally, 239
- prevention and protection
- programs, by jurisdiction, 240–247
- “violence” defined, 239
- working alone or in isolation, 239, 249

Worker education and training

- lockout procedures, 135
- requirements
- “if reasonably practicable” requirement, 75
- most common, 75
- table outlining, by jurisdiction, 76–79
- workplace-specific OHS training
- hazards and controlled substances, 19, 75, 211
- OHS legislation, 75
- hearing protection, 147

Worker safety representatives

- joint health and safety committees and, *see* Joint health and safety committees (JHSCs)
- legal requirements for, 109–115

Workers compensation

- acts and regulations, 265–276
- claims
- incentive programs reducing
- “accreditation” program pilot (Ontario), 89
- “COR” program (Alberta), 103
- generally, 103
- other jurisdictions, 103–107
- first aid, 97–98
- musculoskeletal injuries, 85–89

Working alone or in isolation

- main risks
- emergency help not readily available, 249
- fire or gas leak, 249
- injury or illness, 249
- underground mines, 249
- violence, 239, 249
- safe work procedures
- JHSC, consultation with, 249
- table of, by jurisdiction, 250–257
