

Highlights for the 2026–2027 Edition

This 2026–2027 Edition of *Tennessee Practice Construction Law Handbook* contains complete and up-to-date statutory law and case law, explained by experts in the field. There can be no question that the area of construction law has increasingly become more complicated, much like the construction contracting process itself. As a result, the players in the process are becoming more sophisticated, and more and more are turning to alternative dispute resolution and other strategies to avoid costly and time-consuming disputes. This treatise will address the wide array of issues confronting Tennessee construction law practitioners, no matter what segment of the industry they represent. The content of this text can easily be used by seasoned construction professionals, construction lawyers, and Tennessee lawyers who occasionally confront construction-related issues.

Highlights and new developments in this 2026–2027 Edition include case law and statutory references current through August 2026.
