I. TRANSACTIONAL ISSUES

Private Equity and Leveraged Buy-out Investment in Healthcare: An Analysis of Benefits, Criticisms, and Policy Responses

Thomas H. Hawk, III and Gardner Armsby

I. Introduction: History and Background of Private Equity Investment in Healthcare.....	2
A. Arguments in Favor of Private Equity Investment	4
1. Access to Needed Capital	4
2. Operational Expertise and Growth Acceleration.....	5
3. Liquidity Opportunities for Practice Owners and Founders	6
B. Criticisms of Private Equity Investment	7
1. Quality of Care and Patient Outcomes	8
2. Financial Instability and Extended Hold Periods.....	11
II. Structure of Typical Private Equity Investment	12
A. Fund Structure and Documents	12
B. Roll-Up Strategy	13
C. Platform and Add-On Acquisitions	14
D. Rollover Expectations.....	15
E. Debt Financing Considerations	15
III. Focus Areas for Sponsor Investment	16
A. Behavioral Health.....	16
B. Physician Practice Management (PPM).....	17
C. Laboratory Companies	18
D. Retail Health and Urgent Care.....	18

E. Medical Aesthetics and Spa Services	19
F. Hospitals	19
G. Digital Health and Healthcare Information Technology	20
IV. Special Structures and Considerations for Physi- cian Practice Management.....	21
A. Captive Professional Corporation Structures.....	21
B. Adjusted Prospective Compensation Structures	24
C. Rollover Commitments	24
D. Earnout Provisions and Anti-Kickback Considerations.....	25
E. Employment Commitments and Non-Compete Issues	25
V. Political and Regulatory Scrutiny	26
A. Antitrust Enforcement.....	27
B. State Mini-HSR Requirements	28
C. License Change of Ownership Requirements.....	29
VI. Exit Strategies	30
A. Sale to Strategic or Financial Buyers	30
B. Joint Ventures.....	30
C. Continuation Vehicles.....	31
VII. Policy Responses and Future Outlook	31
A. Federal Policy Developments.....	32
B. State Legislative Activity	32
VIII. Conclusion	33

Indemnification and Limitations of Liability in Healthcare Contracts

Rachel V. Rose, JD, MBA

I. Overview	35
II. Indemnification Versus Limitations of Liability	38
III. General Drafting Considerations: Positives and Pitfalls.....	43
IV. Healthcare Contract Considerations	51
a. Physician Employment Contracts	51
b. Business Associate Agreements (BAAs).....	53

TABLE OF CONTENTS

c. Master Services Agreements (MSAs).....	59
d. Medical Devices & the Uniform Commercial Code (UCC)	60
V. Conclusion.....	63

The Illusion of Assent: Contract Law Implications of Incorporated Policies in Provider Agreements

Richelle Marting

1. Introduction to the Modern Managed Care Contract.....	65
2. Examination of Contract Formation Principles	68
A. Maxims for Interpreting a Contract.....	69
B. Mutual Assent and Meeting of the Minds	70
C. Modification of a Contract.....	71
D. Incorporation by Reference	72
3. The Function and Structure of Health Plan-Provider Agreements	75
A. Purpose and Function of Health Plan-Provider Contracts	75
B. Structure of Health Plan-Provider Contracts.....	78
C. The Incorporation Clause: Text and Function.....	79
D. Scope of Health Plan Policies and Procedures.....	81
E. Notice of Policy Changes: Actual and Constructive	83
F. Unconscionability and the Adhesion Contract Argument.....	85
4. State and Federal Legislative and Regulatory Approach	86
A. The Role and Limitation of Legislation	86
B. Broader Implications for Market Transparency and Fair Dealing.....	88
C. Reform Proposals, Practical Guidance, and Conclusion	89
5. Conclusion	93

Core Business Issues of the Healthcare Facility Lease Agreement

Gregory G. Gosfield

INTRODUCTION: ANATOMIZING THE HEALTHCARE FACILITIES LEASE	96
PART I. THE PARTIES-IN-INTEREST AND THEIR LEGAL RELATIONSHIPS	97
1.1. Parties-in-Interest	97
1.2. Relationships of the Parties	97
1.3. Subordination, Non-Disturbance, and Attorn- ment	98
1.3.1. Tenant Realty Rights	100
1.3.2. Modification	100
1.3.3. Mortgage Approval	101
1.3.4. Mortgage Notice and Cure	101
1.3.5. Property Repair or Replacement	101
1.4. Transfer of Tenant Interest; Assignment/ Subletting; Change of Control	101
1.4.1. Excluded Transactions	101
1.4.2. Unconditional Exemptions	102
1.4.3. Conditional Exemptions	103
1.4.4. Assignment Implementation	104
1.4.5. Remedies for Breach of Transfer Prohibi- tion	104
1.4.6. Retained Liability	104
PART II. BUSINESS TERMS OF COMMERCIAL LEASES	105
2.1. Parties	105
2.2. Physical Location Issues	105
2.3. Commencement and Termination of Tenure	107
2.4. Rent Issues	108
2.5. Landlord Rights	109
2.6. Contest	109
2.7. Default	110
2.8. Tenant Remedies	110

TABLE OF CONTENTS

PART III. SUMMARY OF SPECIAL HEALTHCARE	
FACILITY LEASE BUSINESS ISSUES.....	111
3.1. Doctor-Patient Privilege and Duty of Confidentiality.....	111
3.2. Torts.....	112
3.3. Anti-Kickback and Stark Laws	113
3.4. Hazardous Materials Disposal	113
3.4.1. Disposal Responsibility	115
3.4.2. Disposal Prohibitions.....	115
3.4.3. Disposal Hours.....	115
3.5. Medical Waste Disposal	115
3.6. Hazardous Chemical Materials Disclosure	117
3.7. Americans with Disabilities Act of 1990, Rehabilitation Act of 1973, Fair Housing Act of 1988, and Related Laws	117
3.8. Health Law Compliance	123
3.9. Health Facility Physical Issues.....	123
3.9.1. Utilities.....	123
3.9.2. Health Facility Maintenance Services	123
3.9.3. Health Facility Physical and Structural Improvements	124

4.0. Momentum of the CCBHC Model in Congress.....	312
4.1. Expansion and Extension of the CCBHC Dem- onstration	312
4.2. Substance Abuse and Mental Health Services Administration (SAMHSA) CCBHC “Expansion Grants”	314
4.3. New CCBHC Services Medicaid State Plan Authority	316
5.0. The CCBHC Model Moving Forward	318

5.1. Health Policy Research on CCBHCs' Impact on Access, Quality, and Cost of Care	319
5.2. Continuing Legislative Advocacy for CCBHCs ...	321
5.3. Private Philanthropists' Support of CCBHC Services.....	322
6.0. Conclusion	323

III. DATA MANAGEMENT AND ARTIFICIAL INTELLIGENCE

Preparing for and Responding to Ransomware Attacks in the Health Care Sector

Christina A. Hughes

1. Introduction: Why Ransomware Is Different Now.....	328
1.1. Ransomware is an operations event first, a data event second	328
1.2. What has changed: Double extortion and supply-chain leverage	329
1.3. The investigation-first mindset	330
2. Threat Model for Lawyers: What Actually Happens in a Modern Ransomware Event.....	330
2.1. The ransomware sequence.....	330
2.2. What facts matter legally	331
3. Legal Framework Map: HIPAA, State Law, Contracts, and Sanctions	332
3.1. HIPAA framing: Security incident versus breach	332
3.2. Breach analysis: The facts you must be able to support	333
3.3. State breach laws and “medical information” triggers.....	334
3.4. Contracts and commercial duties: The overlooked accelerator	335

TABLE OF CONTENTS

3.5. OFAC sanctions risk and payment facilitation considerations	336
4. Preparation	337
4.1. Governance and decision rights	337
4.2. Tabletop Exercise: Stress test your incident response plan	338
4.3. Vendor readiness and system interconnections ...	339
4.4. Backups and restoration	339
4.5. Contract readiness and cyber insurance alignment	340
5. The First 24 Hours: Triage	341
5.1. First hour	341
5.2. Containment decisions and legal consequences...	341
5.3. Engage forensics, insurer, and law enforcement .	342
5.4. Communications lock-down	343
6. Investigation and Privilege: Building a Defensible Record	343
6.1. Privilege structure that survives scrutiny	343
6.2. Scoping and evidence	344
6.3. Documentation hygiene	345
7. Decision Points: Pay or Don't Pay; Restore or Rebuild; Negotiate or Hard Stop	346
7.1. Patient safety and operational continuity are the gating factor	346
7.2. Pay versus don't pay	346
7.3. Negotiate versus hard stop; restore versus rebuild	347
8. Notifications and Regulators: Sequencing, Content, and Strategy	348
8.1. Notification decision tree	348
8.2. Drafting strategy: Accuracy under uncertainty ...	349
8.3. OCR and regulator engagement posture	349
8.4. Downstream stakeholder communications	350
9. Downstream and Upstream: Vendors and Customers	351
9.1. If the vendor is the incident source	351
9.2. If you are the incident source and others demand answers	352

9.3. Supply chain improvements to propose after the incident	353
10. Enforcement and Litigation Trends: Why “Risk Analysis” Keeps Showing Up.....	354
10.1. OCR enforcement pattern in ransomware investigations	354
10.2. HIPAA Security Rule NPRM: Direction of travel.....	355
10.3. Litigation trendlines	356

The Rise of the Machines: Legal Risks in the Era of Increasing Health Care AI Use

Daniel F. Shay, Esq.

I. Introduction	358
II. Current AI Usage Within Health Care	360
A. A Brief AI Primer.....	360
B. AI in the Health Care Industry	363
1. Clinical Use of AI	363
2. Documentation-Related Uses of AI	367
3. Claims-Oriented Uses of AI	370
4. Payor Usage of AI.....	372
III. Legal Risks and Considerations	375
A. Malpractice Risk	375
B. False Claims Act Risks.....	378
C. HIPAA Risks	380
D. Reimbursement and Claims Denial Risks.....	383
IV. Risk Mitigation Strategies in the Era of AI.....	387
