2026–2 Release

If you are a subscriber to this set, this update replaces the second volume of the set. Eckstrom's Licensing in Foreign and Domestic Operations: Joint Ventures continues to provide pivotal insights into the techniques, considerations, potential pitfalls, and remedies involved in forming international businesses and joint ventures. It covers the primary considerations of setting up an international business; management structure of the agreement; checklists, ancillary agreements, and arbitration; legal restrictions; research and development; taxation; financing and insurance; and taxation of international technology transfers. The following business information is also available for selected countries: survey of the economy, governmental controls on investment, tax structures, foreign exchange, banking system, labor problems, controls on licensing and intellectual property protection, and an overview of intellectual property law.
