Introduction to the September 2026 Edition of International Securities Regulation: Stock Exchanges of the World

International Securities Regulation: Stock Exchanges of the World is a seven-volume treatise providing concise and understandable local law expertise regarding all of the world's major financial markets. The title is an instant-access guide to all pertinent information concerning the rules and regulations of the world's 60 major stock exchanges. Each chapter provides the breadth of information needed to confidently research, list, and trade securities worldwide. Information on each stock exchange includes an expansive commentary, a list of key contacts and chief officers, the types of instruments traded, and much more. This set is an asset for legal practitioners, executives, fund managers, and other securities industry professionals. Topics include English translations of rules and regulations; domestic and foreign listing requirements and rules; domestic and foreign membership requirements; market capitalization; trading hours; and language used in trading securities.

There is also extensive discussion of international treaties and international arbitration.
