Index

Abrogating contracts
Long-term power contracts, **10:34**

Accelerated depreciation
Recovery for energy property, **3:74**

Accidents
Release of toxic air pollutants, **6:79**
Toxic air pollutants, release of, **6:79**

Accounting
Comprehensive development strategy, **3:103**

Acid deposition caps
General discussion, **6:159**

Adjustments
Long-term contract power rates, **7:23, 7:24**

Administrative Procedure Act
Federal Energy Regulatory Commission (FERC), **5:27**

Advanced energy property
Tax credit under Section 48C for investment in, **3:82**

Affiliates
Holding companies, **5:34**

Aggregation
Consumer contracts for power and metering, **10:21**

Air modelling
Environmental considerations, **6:54**

Air permits
Generally, **3:58**

Air toxics
Environmental considerations, **6:69**

All-source decrement bidding
Generally, **9:19, 9:20**

Alternative fuel use
Environmental considerations, **6:68**

Ancillary services
Deregulation, **10:105 to 10:109**

Antitrust
Deregulation, **10:68 to 10:76, 10:99**
Wheeling power, **8:12**

Approval
Auctions and bidding, **9:30**
Comprehensive development strategy, generally, **3:105**
Merger, wheeling power, **8:5**
SEC approval, **3:119**
State regulatory approval, **3:121**
Wheeling power, merger approval, **8:5**

Arbitrage
Deregulation, **10:2**

Ash
Generally, **6:118**

Assignments
Deregulation, **10:173**

Attorney
Legal opinions, rendering, **3:94**

Auctions and bidding
Generally, **9:1 et seq.**
Administrative versus market determinations, **9:6**
All-source decrement bidding, **9:19, 9:20**
auction system, **9:20**
Regulatory context, **9:19**
Centralized bidding authorities, **9:25**
Collusion and information, **9:11**
Collusion and information, **9:10**
Design of auction, **9:12 to 9:17**
Frequency of auctions, **9:14**
Front-loading, **9:16**

Auctions and bidding—Cont'd
Design of auction, **9:12 to 9:17**
—Cont'd
Goals, **9:12**
Lumpiness of bids, **9:15**
Nonprice variables, **9:13**
Environmental considerations, sulfur allowances, **6:105**
Extraction of economic rents, **9:11**
Federal Energy Regulatory Commission (FERC), **9:27 to 9:30**
First to price silent bidding, **9:21 to 9:24**
Auction results, Price and quality factors, **9:23**
Winning bids, **9:24**
Front-loading, **9:16**
Game theory, **9:8**
Lumpiness of bids, **9:15**
Market determinations, administrative versus, **9:6**
Multiple auctions and bids, **9:9**
Price
generally, **9:1, 9:2**
Auction and bidding fundamentals, **9:2**
first to price silent bidding, **9:21 to 9:24**
Second-price silent bidding, **9:26**
Silent bidding, **9:21 to 9:24, 9:26**
State auction and bidding practices and results,
States bidding, **9:3**
State auction and bidding practices and results, generally, **9:1 to 9:5**
Factors weighed, **9:4**
Results, **9:5**
Types of auctions, **9:7**
Valuing capacity, **9:17**
"Windfalls," **9:1**

Avoided cost
Generally, **7:1 et seq.**
Adjustments to long-term contract power rates, **7:23, 7:24**
Availability of excess QF power, **7:21**
Continuing jurisdiction, **7:22 to 7:25**
Deregulation, **10:40**

Avoided cost—Cont'd
Discounted present value of future capacity, **7:19**
Discretion of state on public utility commission orders, **7:29**
Federal Energy Regulatory Commission (FERC), **7:1 to 7:5, 7:14**
Calculating avoided cost, Methodologies, **7:3**
Economic considerations, **7:4**
Implementation, **7:2**
Promulgated, Statutory goals, **7:1**
Proposed, **7:5**
Filed-rate doctrine, **7:31**
Legal issues, **7:28**
Levelization of avoided cost rates, **7:16 to 7:21**
Future avoided capacity, **7:17**
Maintaining stabilized level rates, **7:18**
Marginal capacity costs, **7:20**
Marginal capacity costs, **7:20**
Orange & Rockland decision, **7:6**
Extent of federal preemption, **7:7**
Preemption
Orange & Rockland decision, **7:7**
rates in excess of avoided cost, **7:14, 7:15**
Qualifying facility, generally, **4:34, 4:36**
Rates, **7:10 to 7:21, 7:23, 7:24, 7:26, 7:31**
Levelized value, **7:12**
Policy to promote qualifying facilities (QFs), **7:13**
Quantifying intangible benefits, **7:11**
Statutory minimum purchase rates, **7:10**
Reopening of contract provisions, **7:25**
Retail rate, **7:27**
State law, generally, **7:9 to 7:25**
Supreme court precedents, **7:8**

Bankruptcy
Generally, **10:30**
Deregulation, **10:100**

Base load cream skimming
Generally, **3:46**

Biomass
Generation technologies and fuels for electric plus thermal energy, **2:16**

Bird protection
Generally, **6:113**

Blackouts
Deregulation, **10:5, 10:29**

"Blue book"
Deregulation, **10:10**

Boilers
Environmental considerations, **6:95**

Bonds
Clean renewable energy bonds, **3:69, 3:70**
Qualified Energy Conservation Bonds, **3:87**
Rule 144A bonds, **3:33**
Tax-exempt financing, **3:66, 3:67**

Brokers
Generally, **5:28**

Budget
Generally, **3:128**
Summer ozone budgets, **6:99**

Building and construction work
Comprehensive development strategy, generally, **3:136**
Contractor due diligence, **3:130**
Contracts, **3:133**
Environmental considerations, **6:135**
Loan commitment, **3:134**
Project Economics
Consuming versus selling self-generated energy, **3:61**
costs
generally, **3:59 to 3:63**

Buildings
Commercial energy efficient buildings, tax deduction, **3:90**
Generation technologies and fuels for electric plus thermal energy,

Buildings—Cont'd
cooling technologies, **2:5**
New energy efficient homes, tax credit, **3:86**
Residential energy efficient property, tax credit, **3:85**

Burden of proof
Criminal liability, **6:197**

Buses
Environmental considerations, **6:65**

Buy-outs and buy-downs
Qualifying facility, **4:45**

Buy to outs and buy to downs
Qualifying facility, **10:56 to 10:59**

California
Generally, **10:23 et seq.**
Choices in restructuring, **10:24**
Conclusions, **10:35**
Environmental versus energy trade-offs, **10:26**
First response to crisis, **10:27**
Restructuring market, failure of, generally, **10:23 et seq.**
Securing long to term power supply, $43 billion forward commitment, **10:32 to 10:34**
2000-2001 crisis, **10:25**

Cancellation of contracts
Deregulation, **10:56 to 10:59**

Cape wind
State preemption of local wind siting authority, **6:151, 10:188**

Cautions
Taxation, **3:92**

Centralized bidding authorities
Generally, **9:25**

CERCLA
Generally, **6:124, 6:195, 6:199**

Change of circumstances
Generally, **3:106**

Chemical inventories
Generally, **6:131**

Civil liability
Environmental considerations
Direct officer involvement, **6:187**
Indirect positional liability, **6:188**

Clean Air Interstate Rule (CAIR)
Generally, **6:101**

Cleancos
Deregulation, **10:133**

Clean renewable energy bonds
Generally, **3:69, 3:70**

Cleanup
General discussion, **6:124**

Closing
Comprehensive development strategy, generally, **3:135**
Customer choice, response of state legislative, **10:28**
Pre to closing, **3:132 to 3:134**

CO
Generally, **6:6**

CO2
Generally, **6:7, 6:158**

Coal
Environmental considerations, **6:26**

Coalbed methane
Generation technologies and fuels for electric plus thermal energy, **2:20**

Cogeneration
Environmental impact, **6:16**
Generation technologies and fuels for electric plus thermal energy, **2:3 to 2:5**
Qualifying facility, **4:10 to 4:16, 6:16**
Calculating the efficiency criterion, **4:12**
Efficient dual output, **4:10**
Operating and efficiency standards, **4:14**
Operating efficiency parameters, **4:11**
Sequential use, **4:13**

Collusion
Auctions and bidding, **9:11**

Combined cycles
Generation technologies and fuels for electric plus thermal energy, **2:9**

Combustion turbines
Generation technologies and fuels for electric plus thermal energy, **2:8**

Commerce clause requirements
Deregulation, **10:146**

Commercial buildings
Tax deductions for energy efficiency, **3:90**

Commitment
California, forward in $43 billion, **10:32 to 10:34**

Common law
Deregulation, **10:96 to 10:101**

Community right-to-know program
Environmental considerations, **6:128**

Compensation loss
Deregulation, **10:109**

Completion
Generally, **3:137**

Congestion management
Deregulation, **10:114**

Connecticut
Deregulation, RPS structure, **10:123**
Distributed generation, **10:177**
Eminent domain
deregulation, **10:198**
wheeling power, **8:22**
Qualifying facility power purchase, net metering structure, **4:32**

Conservation easement
Tax benefits, **3:72**

Contiguous operations exemption
Generally, **5:38**

Continuing jurisdiction
Avoided cost, **7:22 to 7:25**

Continuity or continuation
Continuation of existing promotional programs after deregulation, **10:163 to 10:168**

Contractor due diligence
Generally, **3:130**

Contracts and agreements
Actions and the UCC, **10:98**
Construction contracts, **3:133**
Energy Charter Treaty (ECT), Spain, **3:24**
Environmental considerations, **6:168**
International Energy investment treaties, **3:23, 3:24, 3:26**
Long-term renewable contracts, **10:130**
Securing long to term power supply, California's $43 billion forward commitment, **10:32 to 10:34**
Stabilization clauses, **3:31**

Cooling tower technologies
Generation technologies and fuels for electric plus thermal energy
For power generation facilities, **2:4**

Cooperatives
Tax benefit, patronage dividends, **3:79**

Corporate veil
Generally, **6:185**

Costs
Construction costs, **3:59 to 3:63**
Least to cost planning, **3:35 to 3:43**
Nuclear decommissioning costs, tax benefits, **3:91**
Wheeling power, **8:27 to 8:32**

Country profiles
International independent power development, **3:34**

Cream skimming
Generally, **3:46**

Credits
Generally, **3:75**
Environmental considerations, **6:70, 6:94**

Credits—Cont'd
Historic losses and credits, **3:75**
Investment tax credit, **3:76**
Power projects: 2009 and after, **3:76**
Production tax credits, **3:76**

Credit support
Financing, **3:95**

Criminal liability
Environmental considerations, **6:189 to 6:197**
Market manipulation, **10:33**

Cross-State Air Pollution Rule (CSAPR)
Generally, **6:101**

Dams
Hydroelectric power project licensing, **5:70, 5:71**

Decoupling
Rates, **5:26**

Deductions
Commercial buildings, tax deduction for energy efficiency, **3:90**

Defenses
Deregulation, **10:53**

Definitions
Holding company, **5:32**
Netting emissions, **6:56**
Source, **6:56**
"Useful" thermal energy, **4:16**

Demand-side management (DSM)
Generally, **3:42**

Demand to side management (DSM)
Generally, **6:22 to 6:30**
Deregulation, **10:117 to 10:168**
Environmental savings, **6:22 to 6:30**

Depreciation
Generally, **3:73**
Accelerated depreciation recovery, **3:74**

Deregulation
Generally, **10:1 et seq.**

Deregulation—Cont'd
Above-market prices for renewable projects, **10:147**

Deregulation, consumer contracts for, **10:21**
Massachusetts net metering structure, **4:29**
Municipal carve-out, **4:30**
Qualifying facility, **4:26 to 4:28**
Net power sale, **4:27**

Metering—Cont'd
Renewable portfolio standard, net metering, **10:124**

Methane
Generally, **6:14**
Coalbed methane, generation technologies and fuels for electric plus thermal energy, **2:20**

Multiple auctions and bids
Generally, **9:9**

Municipal utilities
Generally, **5:3**
Deregulation, **10:19, 10:20**

National Ambient Air Quality Standards (NAAQS)
Generally, **6:32**

National Emission Standards for Hazardous Air Pollutants (NESHAPs)
Generally, **6:35**

Natural gas
Deregulation, **10:4**
Environmental considerations, **6:28**

Net metering
Connecticut, **4:32**
Massachusetts, **4:29**

Network service
Deregulation, **10:104**

New generation capacity
Siting reviews, **10:126**

New Hampshire
Eminent domain
deregulation, **10:199**
wheeling power, **8:23**

New Source Performance Standards (NSPS)
Generally, **6:33, 6:34, 6:38 to 6:48**
Air quality
generally, **6:38 to 6:48**

New source review
Generally, **6:55**

Nitrogen oxide (NOx)
Generally, **6:3, 6:39, 6:44, 6:91 to 6:103**
Classification, **6:93**
Statutory requirements, **6:92**

Noerr/Pennington Immunity Doctrine
Generally, **10:73**

Noise regulation
Generally, **6:108 to 6:113, 6:134**

Nuclear power
Environmental considerations, **6:22**
Facility decommissioning costs, tax benefits, **3:91**

Nuisances
Generally, **6:175**

Ocean energy
Generation technologies and fuels for electric plus thermal energy, **2:19**

Off-site sales
Generally, **3:55**

Oil
Environmental considerations, **6:27**

O & M
Generally, **3:127**

OPIC
Generally, **3:13**

Opt-in provisions
Sulphur allowances, **6:106**

Options
Maintenance options, **3:52**
Sulphur allowances, **6:104**

Orange & Rockland decision
Generally, **7:7**
Scope of the decision
generally, **7:6**

Organization and scope
Law of independent power, **1:3**

OSHA regulation
Generally, **6:108 to 6:113, 6:200**

OTAG states
Generally, **6:61**

Output parameters
Qualifying facility, **4:15**

Ownership
Qualifying facility, **4:20 to 4:22**
Tax benefits, **3:71**

Particulate matter
Generally, **6:15**

Partnerships
Generally, **3:112, 3:115**

Permanent financing
Comprehensive development strategies, generally, **3:139**

Personal injuries
Wheeling power, **8:35**

Philosophy and approach
Law of independent power, **1:2**

Photovoltaics
Generation technologies and fuels for electric plus thermal energy, **2:13**

Point-to-point service
Deregulation, **10:104**

Political risk
Insurance, International Energy investment treaties, **3:22**

Portfolio
Renewable portfolio standard
Connecticut RPS structure, **10:123**
legal and policy issues, **10:124**
Massachusetts RPS structure, **10:122, 10:124**
net metering value, **10:124**
solar, value of, **10:125**
strategic trade-offs between SRECs and net metering, **10:124**
Vermont RPS structure, **10:123**
Renewable technologies and demand-side management, **10:121, 10:148, 10:155**

Potable water
Generally, **6:165**

Potential growth
Generally, **3:4, 3:5**
Industry and regional growth potential, **3:6, 3:7**

Power contract
Comprehensive development strategy, generally, **3:118**

Power facilities, IRC
Section 103, 141, and 142, **3:68**

Power market
Generally, **3:1 to 3:140**
Original expectations, **3:3**
Statistics and comparisons, **3:2**

Power police
Responses of state legislative, **10:29**

Power sales rates
Generally, **3:60**

Precedents
Deregulation, **10:45, 10:49, 10:50, 10:151, 10:165**
Federal Energy Regulatory Commission, **5:48 to 5:59**
Filed-rate doctrine, **5:17**

Preemption
Deregulation, **10:49**
Environmental considerations, **6:173 to 6:180, 6:201**
State siting, **5:16**
Wind siting, state
deregulation, **10:188-10:190**
environmental considerations, **6:151-6:153**
Zoning for energy facilities, state preemption of local, **10:95**

Pre to closing
Generally, **3:132 to 3:134**

Price
Date of contract consummation, **10:38**

Price—Cont'd
Deregulation, **10:37 to 10:50, 10:112, 10:148**
Relevance of other factors, **10:39**
Escalators, **3:97**
Fuel price structure, **3:107**
Relevance of other factors, **10:39**
Wheeling power, **8:31**

Prime movers
Generation technologies and fuels for electric plus thermal energy, **2:6 to 2:12.90, 2:23 to 2:29**
Self-generation, engines versus turbines, **3:48**

Privatization
Commercial, international capital risks, **3:11**
Currency, international capital risks, **3:11**
International capital risks, **3:11**
International independent power development, **3:9 to 3:34**
Policy-induced international capital risks, **3:11**
Sovereign, international capital risks, **3:11**

Products liability actions
Deregulation, **10:97**

Pro-forma financial analysis
Generally, **3:110**

Project finance
Financing, **3:95**

Promotions
Promotion of renewable technologies and demand to side management, **10:117 to 10:168**

Property damage
Wheeling power, **8:36**

Property taxes
Generally, **10:83**

Protecting utility
Avoided cost, **7:30**

Public Utility Holding Company Act
Deregulation, **App 2**

Public Utility Holding Company Act of 1935
Generally, **5:29 to 5:39**
Definitions, **5:32, 5:44**
Exemptions
generally, **5:36 to 5:39**
Intrastate, **5:37**
Other primary business, **5:39**
wholesale generators, **5:44 to 5:46**
Foreign utilities, **5:46**
Fuel sales by electric utilities, **5:33**
Indian tribal lands, **5:46**
Leaseback and sale, **5:41**
Restrictions, **5:31**
Rules 14 and 15, **5:42**
SEC Rule 58, **5:47**
Statutory purpose, **5:30**
Subsidiaries and affiliates, **5:34, 5:35**
Two-bite rule, **5:40**
Wholesale generators, exemption of, **5:44 to 5:46**
Regulation of relationships between registered holding companies and EWGs, **5:45**

QF contract rate
Avoided cost, **7:26**

Qualifying bonds
Generally, **3:67**

Qualifying facility
Generally, **4:1 et seq.**
Authority, Matters regulated, **4:42**
Certification, **4:2 to 4:5**
Losing QF status, **4:3**
Waiver of QF noncompliance, **4:4**
Cogeneration, **4:10 to 4:16, 6:16**
Contracts
buy-outs and buy-downs, **4:45**
buy to outs and buy to downs, **10:56 to 10:59**
Economic parameters, **4:41**
Economics, **3:53**
Environmental impact, **6:16**
Exemptions, **4:6 to 4:8**
Fuel use, **4:23**
Interconnection, **4:39 to 4:41**
Just and reasonable rates, **4:35**

Qualifying facility—Cont'd
Legal parameters, **4:39**
Municipal carve-out, **4:31**
Net versus gross power sale and net metering
Submetering, **4:33**
Ownership criteria, **4:20 to 4:22**
Pre-2006
Calculation of percentage ownership, **4:21**
State limitations, **4:22**
Project development problems and failures
generally, **3:143**
Purchases of power from qualifying facility, **4:24 to 4:34**
Net metering, **4:28**
Rate requirements, **4:24**
Rates, **4:36, 4:38**
Rates
IPP status as public utilities, **4:43**
Rates, Avoided cost, **4:36**
Risk and reliability, **3:141**
Sales of power to qualifying facility, **4:37, 4:38**
Self-determined QF power purchase rates, **4:47**
Size and efficiency criteria, **4:9 to 4:19**
Small power production, **4:17 to 4:19**
State regulation, generally, **4:42 to 4:47**
Technical parameters, **4:40**
Termination of PURPA purchase obligation, **4:25**

Racketeer Influenced and Corrupt Practices Act
Generally, **6:193**

Rankine cycles
Generation technologies and fuels for electric plus thermal energy, **2:11**

Rates
Avoided cost, **7:10 to 7:21, 7:23, 7:24, 7:31**
Decoupling rates, **5:26**
Deregulation, **10:142**

Rates—Cont'd
Different rate categories, **5:24**
Federal regulation, generally, **5:20**
Feed-in state tariffs, **10:143**
FERC, rates and practices, **5:21**
Filed rates and PURPA rates, **5:18**
Filed to rate doctrine, **5:17 to 5:21**
IPP regulation and filed rates, **5:19**
Qualifying facility, **4:35, 4:38, 4:39, 4:47**
Rate and service regulation, **5:22**
State retail rate-setting, **5:23**
State versus federal authority, **5:20**
Time of use peak-sensitive, **5:25**

Reactive power
Deregulation, **10:106**

Real estate acquisition
Generally, **3:116**

Reformulated gasoline renewable oxygenate requirement
Generally, **6:63**

Regional growth potential
Generally, **3:6**

Regional transmission organizations
Generally, **10:115**

Reliability
Generally, **3:141 to 3:144**
Deregulation, **10:5**

Renewable energy
Deregulation, **10:117 to 10:168**
Environmental considerations, **6:23, 10:161**
Generation technologies and fuels for electric plus thermal energy, **2:12**
Tax credit for renewable electricity production, **3:77**

Rents
Auctions and bidding, **9:11**

Reopening of contract provisions
Avoided cost, **7:25**

Reorganization
Deregulation, **10:52**

Resale
Operating projects, **3:63**
Wheeling power, sale-for-resale transactions, **8:3, 8:4**

Research
Tax credit for energy research, **3:81**

Reserves
Deregulation, **10:107**

Residential property
Tax credit for energy efficient property, **3:85, 3:86**

Resource conservation and recovery act (rcra)
Generally, **6:119, 6:191**

Restructuring
Tax implications, **10:79 to 10:93**

Retail rate
Avoided cost, **7:27**

Retail rate discounts
Deregulation, Law of independent power, **10:17**

Retail sales
Qualifying facility, **4:46**
Wheeling power, **8:26**

Rhode Island
Eminent domain
deregulation, **10:200**
wheeling power, **8:24**

Rights of way
Environmental considerations, **6:149**

Right-to-know program
Environmental considerations, **6:128**

Risk
Generally, **3:141 to 3:144**
Political risk insurance, International Energy investment treaties, **3:22**

Rule 144A bonds
Generally, **3:33**

Safe Water Drinking Act
Water quality, **6:115**

Sales and use taxes
Generally, **10:85**

SARA Title III community right-to know program
Environmental considerations, **6:128**

Schedule
Generally, **3:128**

Screening
Comprehensive development strategy, **3:100 to 3:140**
Energy regulation, **3:113**
Power contract, **3:101**

Search and seizure
State legislative reflex, **10:31**

Second-price silent bidding
Generally, **9:26**

Self-generation
Generally, **3:45 to 3:58, 3:61**
Designing the system to thermal requirements, **3:49**
Qualifying facility, **4:44**

Sentencing guidelines
Environmental considerations, **6:198**

Settlement order
Deregulation, **10:15**

Silent bidding
Generally, **9:21 to 9:24, 9:26**

SIP call
Environmental Protection Agency, **6:100**

Site
Generally, **3:108**

Siting
Deregulation, **10:179 et seq.**
Environmental considerations, **6:140 et seq.**
Federal Energy Regulatory Commission (FERC), **5:15, 5:16**
Local land use and zoning regulations, state preemption, **5:76**
New generation capacity, reviews, **10:126**

Siting—Cont'd
Power generation, **5:73, 5:76**
Process and appeal issues, state regulation, **5:77 et seq., 6:144, 10:183 et seq.**
State regulation, **5:15, 5:16, 5:73 et seq., 6:140 et seq., 10:179 et seq.**

Size
Size and efficiency criteria for qualifying facility, **4:9 to 4:19**

Small power production
Qualifying facility, **4:17 to 4:19**

Solar facilities
Renewable portfolio standard, **10:125**

Solicitation
Lender solicitation, **3:131**

Solid waste management and disposal
Generally, **6:118 to 6:131, 6:169, 6:177**

Spain
Energy Charter Treaty (ECT)
energy sector litigation, **3:25**
regulatory post, contract changes, **3:24**

Spark spread
Deregulation, **10:2**

Specialized credit and guarantee facilities
Generally, **3:12 to 3:16**

Specialized equity funds
Generally, **3:16**

Spot pools
Deregulation, **10:112, 10:113**

Spot zoning
Generally, **6:154**

Standby rates
Qualifying facility, **4:38**

State authority
Deregulation, **10:6**

State legislative responses
Bankruptcies, **10:30**
Blackouts and power police, **10:29**
Closing customer choice, **10:28**
Legislative reflex, search and seizure, **10:31**
Securing long-term power contracts for $43 billion, **10:32**

State Programs
Generally, **10:139**

State regulatory rights
Generally, **5:72-5:81**
Generally, **5:72 et seq.**
Local land use and zoning, preemption, **5:76, 6:143, 10:182**
Power generation
certification for all generation facilities, **5:74, 6:141, 10:180**
legal standards applied to siting approval, **5:75, 6:142, 10:181**
siting approval, **5:73, 6:141, 10:179**
Preemption, zoning for energy facilities, **10:95**
Siting
appellate process and rights, **5:81, 6:148, 10:191**
approval, **5:73 et seq., 6:140 et seq., 10:179 et seq.**
composition of authority, **5:78, 6:145, 10:184**
Federal Energy Regulatory Commission (FERC)
generally, **5:15**
preemption, **5:16**
legal record, **5:80, 6:147, 10:186**
process and appeal issues, **5:77, 6:144, 10:183**
public access and party legal status, **5:79, 6:146, 10:185**
Siting approval, **6:140, 10:179**
Transmission and distribution lines, siting approval, **5:73, 6:140, 10:179**
Zoning for energy facilities, state preemption of local, **10:95**

State standards and electromagnetic field liability
Generally, **8:33**

Steam
Host, **3:126**

Steam turbines
Environmental considerations, **6:41 to 6:46**
Generation technologies and fuels for electric plus thermal energy, **2:7**

Stirling engines
Generation technologies and fuels for electric plus thermal energy, **2:25**

Storage
Fuel storage, **6:169**
Generation technologies and fuels for electric plus thermal energy, **2:30**
Underground storage tanks, **6:121**

Stranded investment
Deregulation, **10:60 to 10:67**
Wheeling power, **8:26**

Stratospheric ozone
Generally, **6:83**

Subsidiaries and affiliates
Application of PUHCA, **5:34**
Holding companies, **5:34, 5:35**
Integrated public utility systems, **5:35**

Subsidies
Energy Conservation Subsidies provided by public utilities, tax benefits, **3:89**
Subsidy of renewables, **10:162**

Sulfur dioxide (SO2)
Generally, **6:4, 6:40, 6:43, 6:84, 6:90**

Sulphur
Generally, **6:87, 6:89, 6:104 to 6:106**
Trades and results, **6:88**

Summary
Exempt wholesale generators, **5:43**

Summer ozone budgets
Generally, **6:99**

Superfund (CERCLA)
Generally, **6:124, 6:195, 6:199**

Supreme court precedents
Avoided cost, **7:8**
Filed-rate doctrine, **5:17**

Surface water
Generally, **6:164**

Swaps and swap participants
Dodd-Frank Act compliance, **3:102**

Targeting end-uses
Generally, **3:40**

Tariffs
Feed-in state tariffs, state authority, **10:143**

Taxation
Generally, **3:64 to 3:92**
Advanced energy property, tax credit for investment, **3:82**
Benefits
advanced energy property, investment in, **3:82**
commercial buildings, deduction for energy efficiency, **3:90**
Energy Conservation Subsidies provided by public utilities, **3:89**
energy credit, **3:80**
energy research credit, **3:81**
equity finance, **3:88**
new energy efficient homes, tax credits, **3:86**
Qualified Energy Conservation Bonds, **3:87**
Qualified facilities, **3:78**
related tax provisions, **3:83**
renewable electricity production credit, **3:77**
residential property tax credits, **3:85**
tax equity finance, **3:88**
Cautions, tax, **3:92**
Code changes and practical impacts, **3:65**

Taxation—Cont'd
Conservation easement, benefits, **3:72**
Cooperatives and patrons, **3:79**
Deduction for energy efficient commercial buildings, **3:90**
Deregulation, **10:100**
Energy Conservation Subsidies provided by public utilities, **3:89**
Energy credit, **3:80**
Energy efficient commercial buildings, **3:90**
Energy research credit, **3:81**
Environmental considerations, **6:174**
Equity finance, **3:88**
Investments, **3:82**
New energy efficient home credit, **3:86**
New energy efficient home credit under, **3:86**
Nuclear decommissioning costs, **3:91**
Other eligible property, **3:84**
Power facilities, IRC Section 103, 141, and 142, **3:68**
Practical impact of recent code changes, **3:65**
Qualified Energy Conservation Bonds, **3:87**
Qualified facilities, **3:78**
Renewable electricity production credit, **3:77**
Residential energy efficient property, **3:85**
Tax equity finance, **3:88**

Tax benefits
Conservation easement, **3:72**

Techniques to ensure reliability
Generally, **3:142**

Technology
Generally, **3:109**

Telecommunications
Shared facilities and attachments, deregulation and unbundling, **10:3**
Telecommunications and natural gas deregulation comparisons, **10:4**

Thermal energy
Qualifying facility, ''useful'' thermal energy defined, **4:16**
Self-generation considerations, **3:49**

Third-party owners
Generally, **3:62**

Time of use
Peak-sensitive rates, **5:25**

Title IV
Generally, **6:102**

Transmissions systems
Generally, **10:110 to 10:116**

Transmission system design
Generally, **10:116**

Treasury grants
Power projects: 2009 and after, **3:76**

Turbines
Gas turbines, environmental considerations, **6:39, 6:40**
Self-generation, **3:48**

Turboexpanders
Generation technologies and fuels for electric plus thermal energy, **2:26**

2003 Federal legislative proposals
Deregulation, **10:9**

2005 Energy Act
Deregulation, **10:8**

Unbundling services
Deregulation, **10:1, 10:2, 10:102 to 10:104**
Telecommunication shared facilities and attachments, **10:3**

Underground storage tanks
Generally, **6:121**

Uniform Commercial Code
Contract actions, **10:98**
Deregulation, **10:96 to 10:101**

Upgrades
Wheeling power, **8:9**

Urban air pollution
Generally, **6:59 to 6:61, 6:65, 6:66**

"Useful" thermal energy
Definitions, **4:16**

Use taxes
Generally, **10:85**

Utility and QF bankruptcy
Risk and reliability, **3:144**

Value and valuation
Auctions and bidding, **9:17**
Avoided cost, discounted present value of future capacity, **7:19**
Deregulation, valuation of existing utility assets, **10:170**
International Energy investment treaties, substantial deprivation of, **3:21**
Wheeling power, market value, **8:32**

Variances
Generally, **6:139**

Vermont
Deregulation, RPS structure, **10:123**
Eminent domain
deregulation, **10:196**
wheeling power, **8:20**

Vestings
Generally, **6:155**

Visibility protection
Generally, **6:53**

VOCs
Generally, **6:5**

Waiver and estoppel
Environmental considerations, **6:180**
Federal Energy Regulatory Commission, **5:57**
Qualifying facility, **4:4, 4:19**

Warranties
Generally, **3:96**

Waste-fueled projects
Generally, **10:144**

Waste management and disposal
Generally, **3:123**

Waste management and disposal —Cont'd
Hazardous waste, **6:120, 6:121, 6:170 to 6:172, 6:177**
Solid waste management and disposal, **6:118 to 6:131, 6:169, 6:177**

Waste-to-energy
Environmental considerations, **6:24, 6:118**
Generation technologies and fuels for electric plus thermal energy, **2:18**

Water
Generally, **3:57**

Weather risks
Hedging of, **3:98**

Wetlands
Generally, **6:116**

Wheeling power
Generally, **8:1 et seq.**
Antitrust, **8:12**
Authority to wheel, generally, **8:6 to 8:17**
Connecticut, eminent domain, **8:22**
Costs, **8:27 to 8:32**
incurred by the wheeler, **8:29**
Costs allocation
Methods and objectives, **8:30**
Economics, generally, **8:27 to 8:32**
Efficiency, Goals and realities, **8:28**
Electromagnetic fields and liability, **8:33 to 8:36**
Eminent domain
generally, **8:16, 8:18**
Connecticut, **8:22**
IPPs, no extension to, **8:22 to 8:24**
Maine, **8:21**
Massachusetts, **8:19**
New Hampshire, **8:23**
private stakeholders, extending to, **8:19 to 8:21**
Rhode Island, **8:24**
Vermont, **8:20**
Essential facilities doctrine, **8:12**

Wheeling power—Cont'd
Federal authority and PURPA amendments, **8:6 to 8:13**
Federal Energy Regulatory Commission (FERC), **8:11, 8:15**
FERC sitting authority, limited, **8:17**
Interconnection, **8:9**
Interstate commerce, **8:15**
IPPs, no extension to, eminent domain, **8:22 to 8:24**
Maine, eminent domain, **8:21**
Market value, determination of, **8:32**
Massachusetts, eminent domain, **8:19**
Merger, **8:5**
New Hampshire, eminent domain, **8:23**
Personal injuries, **8:35**
Precedents
personal injuries, **8:35**
property damage, **8:36**
Preemption, **8:15**
Price, **8:31**
Private parties, **8:18**
Private stakeholders, extending eminent domain to, **8:19 to 8:21**
Property damage, **8:36**
Public purpose, **8:18**
Regional transmission groups, **8:10**
Retail customers, wheeling through intermediary utilities, **8:26**
Rhode Island, eminent domain, **8:24**
Sale-for-resale transactions, **8:3, 8:4**
Regional variations, **8:4**
State authority, **8:14, 8:25**
Intrastate wheeling, **8:14**
Technical constraints and transmission capacity, **8:2**
Transmission policy, **8:8**
Upgrades, **8:9**
Vermont, eminent domain, **8:20**
Wheeling in and out, **8:13**
Wholesale transactions, **8:3, 8:7**

Wholesale level
Market manipulation, deregulation, **10:71**

Wholesale transactions
Deregulation, **10:153**
Exemption of wholesale generators, **5:44 to 5:46**
Wheeling power, **8:3, 8:7**

Wind energy
Facilities and FERC authority, **6:150, 10:187**
Generation technologies and fuels for electric plus thermal energy, **2:14**
Land based wind zoning and state preemption, **6:153, 10:190**
Local wind siting authority, state preemption of, Cape wind, **6:151, 10:188**
Zoning, traditional municipal power to site wind facilities and selective state preemption, **6:152, 10:189**

"Windfalls"
Auctions and bidding, **9:1**

Workplace environmental violations
Generally, **6:200, 6:201**

World bank instruments
Generally, **3:14**
Additional credit enhancements generally, **3:15**

Zoning
Deregulation, zoning overrides, **10:94**
Energy facilities, state preemption of local, **10:95**
Wind siting
deregulation, **10:189, 10:190**
environmental considerations, **6:152, 6:153**
